## April 2018 newsletter

### March recap

Our budding scientists were over the moon for all the experiments! Some items used were: cornstarch, corn syrup, baking soda, vinegar, flour, milk, baby oil, water, soap and glue. We used a variety of items to help us including: straws, canisters, eye droppers, a salad spinner, syringes, pipe cleaners and marbles! We explored sinking and floating, construction science, magnets, as well as combining and pulling apart. We learned that science can be both fun and messy, and sometimes, fail!

After our science unit we moved on to using our imagination as we pretended to be Pirates .... aaargh matey; and Princesses. The children created Treasure maps with X marking the spot, pirate hats, princess crowns, coats of arms, pirate ships and castles!

### Coming up in April

April 3 <sup>rd</sup> - 13 <sup>th</sup> 	Welcome back and Spring theme
